### Paper Submission

Authors must submit an original paper that has not previously been published. In this first phase, the papers cannot have the authors' names, nor their affiliations.

All contributions must be in English.

The following types of papers can be submitted: Full Paper: Finished or consolidated R&D work, papers length allowed 12 to 15 pages; Short Papers: Length allowed 10 to 11 pages.

All papers must follow the Springer template. Authors should consult Springer's authors' guidelines and use their proceedings templates, either for LaTeX or for MSWord, for the preparation of their papers. Springer encourages authors to include their ORCIDs in their papers. In addition, the corresponding author of each accepted paper, acting on behalf of all of the authors of that paper, must complete and sign a Consent-to-Publish form, through which the copyright for their paper is transferred to Springer.

All papers should be submitted electronically on the link to [EasyChair submission system](#).

Selected papers will be invited to publish an extended version in:

- SN Computer Science, Springer and Nature
- Computation, MDPI
- EAI Endorsed Transactions on Smart Cities, open access, peer-reviewed scholarly journal
